## SUMMARY

Computer Science and Engineering graduate with 1 year of experience in software engineering and database administration. Worked on healthcare ETL pipelines with JavaScript and Oracle SQL. Currently working on data migration and data analysis. Experienced in healthcare systems and enthusiastic about computer security.

## TECHNICAL SKILLS

- C, C++, Java, Python, JavaScript, TypeScript, SQL, NodeJS, ExpressJS, FastAPI, React, Next.js, Tailwind CSS, TanStack Query, Supabase, MongoDB, Linux, Git, Postman, Docker, AWS

## WORK EXPERIENCE

**Commure Bangladesh** **Nov 2026**
*Data Operations Analyst - Air Data Migrations* *Dhaka, Bangladesh*

- Data migration for healthcare providers in USA
- Tools Used: SQL · Python · Pandas · NumPy · Excel

**Radiant Data Systems** **Nov 2025 – Jun 2026**
*Junior Software Engineer* *Dhaka, Bangladesh*

- Managed production databases, built .NET desktop applications to create and clean data for a healthcare data pipeline. Wrote JavaScript code and Oracle SQL procedures for the **ETL process** in Mirth Connect
- Engaged in building an internal management platform in MERN stack which helps **500+ users** for tracking their attendance, leave applications, turning on/off office meals etc.
- Tools Used: C# · JavaScript · Mirth Connect · Oracle SQL · React · ExpressJS · mongoDB

**Omukk** **Jun 2025 – Sep 2025**
*Software Development Intern* *Dhaka, Bangladesh*

- Worked on the whole frontend UI/UX, all the pages including multistep forms for student application and integrated APIs of a **higher study consultancy platform**. This platform included dashboard for different user roles (admin, agent, student).
- Tools Used: React · TypeScript · Tailwind CSS · Zod · React-hook-form · React-router · TanStack Query · PostgreSQL

## PROJECTS

**Dhaka Visuals** | Client Project **2026**

- A business website for an Audio Visual Production company based in Dhaka - with dynamic landing page to showcase portfolio, clients and customized features for upload, remove and modification of contents.
- Built in **NextJS app router**, the authorized admin login is managed via **supabase TOTP login** for QR code based multi-factor authentication and the supabase storage and postgreSQL database is used for the uploads.
- Tools Used: NextJS · Tailwind CSS · Supabase · PostgreSQL

**Task Board** | Personal Project **2025**

- A priority based kanban style task tracker with database and **google authentication** integration in supabase. Also a **separate backend in fastAPI and database in SQLite**
- Tools Used: React · Tailwind CSS · FastAPI · SQLite · Supabase

**Sexual Harassment Protection Cell** | Academic Project **2024**

- Built a **web platform for sexual harassment reporting and tracking** for our University which was awarded **runners up** for **E-governance and Innovation Showcasing**. Entire project was maintained with proper requirements engineering and software development life cycle.
- Tools Used: React · ExpressJS · Tailwind CSS · MongoDB

**Sport Station** | Academic Project **2023**

- Designed and developed a full-stack online sports shop as a single vendor e-commerce to sell various sports instruments. Used **ExpressJS and MySQL** together without any ORM.
- Tools Used: React · ExpressJS · MySQL · Bootstrap

**Course Management System** | Academic Project **2023**

- Developed a student-teacher course management platform using relational database. Used **Apache tomcat** server for Java server pages.
- Tools Used: Apache TomCat · JSP · MySQL · Bootstrap

## EDUCATION

**Shahjalal University of Science & Technology** **Feb 2020 – July 2025**
*B.Sc. in Computer Science & Engineering* *Sylhet, Bangladesh*

## COMPETITIVE PROGRAMMING EXPERIENCE

- Competitive programming **portfolio** . Participated in Intra SUST programming contest 2023, and **ICPC Asia Dhaka Regional Site Online Preliminary Contest** in 2022 and 2021.

## HACKATHON EXPERIENCE

- Became **champion** in Leading University hackathon 2022 by building an MVP of multi vendor e-commerce with features of **pro users, payment gateway, bidding** for customers and others.
- Attended the prestigious **Code Samurai 2024 Preliminary** and moved on to the next round with selected top 300 teams in Bangladesh. Also have experience participating in several national and inter university hackathons.

## VOLUNTEER & LEADERSHIP EXPERIENCE

- Organized workshops on git, software development, hackathon as a **Secretary of Organizing**(Deputy Head of a team of 9 persons) in **SUST ACM Student Chapter**.
- Organized hackathon in **SUST CSE Carnival 2024** leading a team of 15. Worked as a sub editor in the carnival magazine as **Publication Secretary** of CSE Society, SUST.
- Have a diverse experience of volunteering including **WordCamp Sylhet 2024**.

## CERTIFICATIONS

- AWS Academy Graduate **Cloud Foundations** and **Cloud Developing** , Docker from **KodeKloud**, Front-end Web Development with **JavaScript** and **React**

## RESEARCH

- *Application Agnostic Performance Measurement Framework for Self Sovereign Identity based Applications* - Worked on our undergraduate thesis which focuses on building a **performance measurement framework** for blockchain based SSI applications. It focuses on simulating and testing various SSI cloud agent api's integrating **JMeter, Prometheus and Grafana** to show the performance comparison.
- *Multimodal song genre classification from Bangla lyrics(text and audio)* - Worked on a machine learning project for academic outline which focuses on comparing and evaluating model performances for best results on Bangla song genre classification. We used CNN, FNN, various BERT models and transformer models i.e. DistilHuBERT, ASTFineTuning, Wav2Vec2
